

What will you do when Lightning Strikes?

When You are Indoors

Avoid Contact With electrical equipment and Telephone Unplug any electronic equipment before the storm arrives

Stay away from window and doors, and stay off verandas

Avoid contact with plumbing and metal pipes. Do not wash your hand, do not take a shower, do not wash dishes and do not wash clothes

When you are outdoors

Tall tree attracting lightning. Never used tree as shelter. Avoid the tallest object in the area. Spread out- don't stand in a crowd of people.

Get inside a home, building, or hard top automobile. Although lightning might strike your car, you are much safer inside a vehicle than outside.

Don't used metal object including bikes, electric or telephone poles, fencing, machinery etc.

Get out of the water. This including getting off small boats on the water, immediately get out any away from pools. Lakes, and other bodies of water.

If your hair stand on end or your skin tingles, lightning may be about to strike near you immediately crouch down and cover your ears. Do not lie down or place your hands on the ground.

What to do after a lightning strikes

Victims of lightning shock should be administered CPR (cardio pulmonary resuscitation) i.e. artificial respiration, if necessary. Seek medical attention immediately.
